

Information Security Management System (ISMS) Policy

Document ID: POL-ISMS-001

Effective Date: January 1, 2025

1. Objective The purpose of this policy is to protect the organization's information assets from unauthorized access, loss, or disclosure.

2. Scope This policy applies to all full-time employees and internal networks.

3. Guidelines

- **Authentication:** All employees must use a username and a password of at least 8 characters to access company systems. Passwords must be changed every 180 days.
- **Awareness Training:** Employees must complete basic security training within their first month of joining the company.
- **Antivirus:** All workstations must have the company-approved antivirus software installed and active.
